

Krisonia Jewellery Care

Krisonia jewellery is designed to accompany you every day, blending timeless elegance with lasting durability. To preserve its beauty and ensure it stands the test of time, we invite you to follow a few simple yet essential care recommendations.

DAILY WEAR

Krisonia creations are crafted for everyday wear, though certain gemstones and precious materials require particular care.

We recommend the following:

- Avoid direct contact with perfumes, soaps, chemicals, or cosmetics, as these may dull the brilliance of metals and stones.
- Put your jewellery on last, after applying creams, make-up, or fragrance.
- Consider your daily activities: during sport or manual work, it is best to remove your jewellery to protect it from knocks or undue stress.
- Avoid extreme changes in temperature, especially for natural gemstones, which can be sensitive to thermal shock and may alter in colour or structure.

STORAGE

Proper storage is key to preventing accidental damage:

- Store each piece separately in the Krisonia case provided at the time of purchase to avoid scratches or tangling.
- Avoid placing multiple items together, particularly those set with diamonds, as diamonds can scratch softer materials.
- When travelling, use a padded protective case to ensure each item remains secure and well-separated.

PRECAUTIONARY MEASURES

Regular checks can help prevent damage or loss:

- Always inspect the clasp, fastenings, and stone settings before wearing your jewellery.
- If you notice a faint rattling sound when gently shaking the piece, this could indicate that a stone is loose.
- If your jewellery catches on clothing, it may mean that the prongs have bent or loosened. In such cases, we recommend having it examined by a professional.

CLEANING AND MAINTANANCE

To maintain the brilliance of your jewellery:

- Clean gently with a soft brush, using warm water and a mild, non-abrasive soap.
- Dry with a soft, lint-free cloth, avoiding any rough or abrasive materials.
- For a more thorough clean or for pieces featuring fine gemstones, we suggest periodic professional maintenance by specialists.

Krisonia jewellery deserves your daily attention so it may continue to shine by your side for years to come.
