

## How We Measure Our Rings

Our jewellery sizes follow the Italian standard.

The fit of a ring can vary depending on the model, just like clothing or footwear. In particular, the thickness of the ring can affect how it fits: the thicker the ring, the tighter it will feel.

If you are undecided between two similar sizes, we recommend choosing the slightly larger one.

## Size Guide Using a Ring

Before measuring the ring, make sure this guide is printed on A4 paper at 100% scale.

To confirm the print is accurate, place a credit card on the line below.

If the card matches the reference line, the print is correct.

Place your credit card here

## Measuring Using Another Ring

To find your KRISONIA ring size, use another ring that fits well.

Match the inside of the ring with the circles below.

When the ring is placed on the correct size, you should see only the white circle inside it, with no red area showing.
