**64 RAINWEAR**

**68 GLOVES**

**74 SAFETY ARMOUR**

**80 SIZE GUIDE**

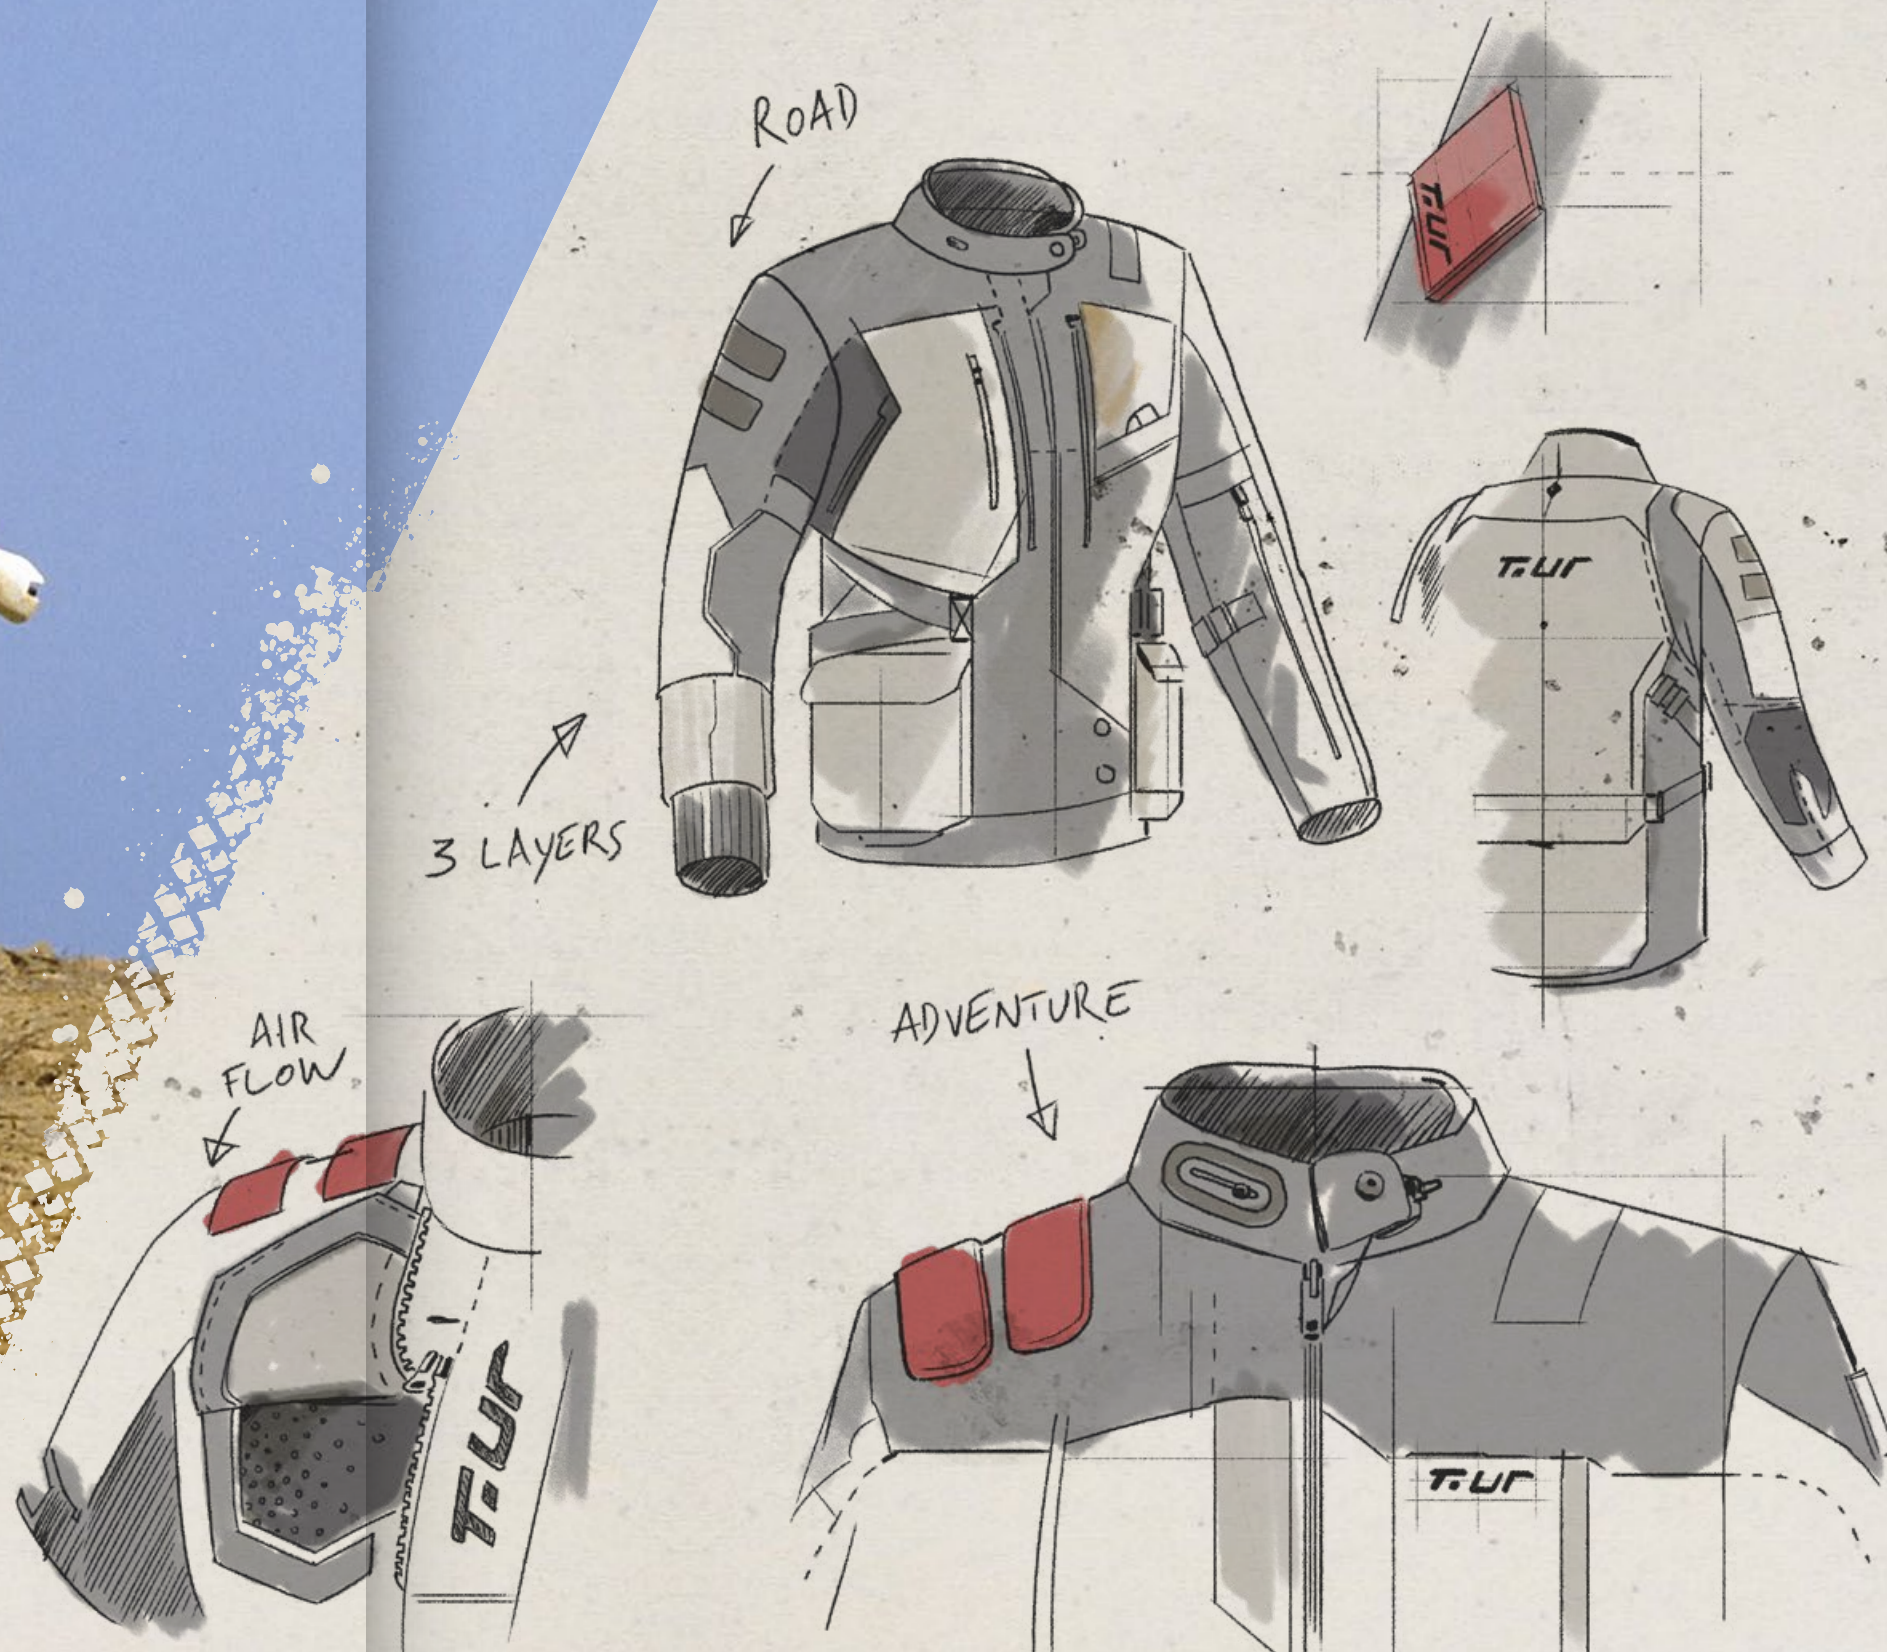

## THE INSPIRATION.

The spirit of the rallies that have become legend is blended with cutting edge technology.

## A MARK OF STYLE ON THE ROAD.

Vintage from a distance. Modern and technical from close up. The *T.ur* style makes a name for itself on the motorcycle scene with a unique design.

Jacopo Cerutti

*The fastest Italian rally rider in the business.*

## SPIRIT OF ADVENTOURING

For Jacopo Cerutti, *the Spirit Of Adventouring* is about exploring new roads, it is about riding without too many thoughts in your mind and without expectations, it is about encountering the unknown: the Italian rally biker loves to go on adventures on his motorbike. “Be it on the other side of the world or close to home, the important thing is to lose yourself”.

 [jacocerutti15](#)

# OUR SYSTEMS

## GUARANTEED WATERPROOFING.

*T.ur* has adopted **HYDROSCUD®**, the exclusive patented system of **Tucano Urbano**, to ensure **100% waterproofing and breathability**.

An exclusive construction which combines coated fabrics with taped seams and waterproof flaps.

**Watertight construction.**

**Taped seams.**

**High-performance materials.**

**High breathability.**

**DROP SAFE** is a special teflon treatment applied to the fabric surfaces to improve water repellence. It makes water run off the fabric instantly and accelerates drying time without modifying weight, appearance, softness, colour or breathability. It also improves stain and gnat resistance.

Made from 100% polyester, **POLYSTRONG** is a latest-generation synthetic yarn that guarantees excellent tenacity and resilience as well as resistance to abrasion, creasing and heat. Thanks to a low liquid absorption coefficient, it does not absorb humidity and is therefore waterproof and dirt resistant.

**XTR-M** is a medium/thick mesh for outer shells.

It is ultra-resistant to abrasion, tearing and wear while being flexible and extremely comfortable thanks to high elasticity. XTR-M has a low specific weight and is both water repellent and light.

## **A D V E N T U R E**

Overcome all obstacles, driven by the curiosity to explore new places, enjoy unexpected encounters and perhaps go somewhere no one has ever been. In order to feel at one with your bike and nature, it is important to choose products made from materials that offer unparalleled performance, with attention to even the slightest of details.

# ROADBOOK T8111M

3-LAYER JACKET, EN 17092:2020 CERTIFIED - CLASS AA

Main jacket

Removable and wearable as a stand-alone garment down jacket

HYDROSCUD® IN&OUT membrane

HYDROSCUD waterproof and breathable

Sizes: S - 4XL

BG  
BLUE - GREY

VGS  
GREEN - DARK GREY

## It goes beyond all limits.

Made of Polystrong 600D Pro, it defies any terrain and any climate, with an unparalleled ability to adapt to the needs of the most demanding drivers. From the winter configuration with 3 independent layers, it switches to a super-ventilated summer configuration thanks to the opening of the 3 front and 2 rear air intakes. For maximum incoming air flow, the ones on the sleeves can also be opened. And off to new, unexplored horizons.

### OUTER SHELL

- The main fabric is made of Polystrong 600D Pro, with Drop Safe treatment.
- Presence of parts in high tenacity Profiber stretch fabric.
- Presence of high-tenacity Xtr-M mesh inserts.
- Presence of leather inserts on the forearm, from elbow to wrist.

### INTERNAL LAYERS

- The membrane is HYDROSCUD® 100% waterproof and breathable and is IN&OUT, removable to be worn also outside over the jacket.
- The down jacket is made of nylon, with polyester staple filling, and is removable and wearable as a stand-alone garment.
- The fixed inner lining is made of breathable, perforated polyester.
- Modular docking system.

### VENTILATION

- At the front 3 air intakes.
- At the back 2 AIRFLOW SYSTEM air intakes.
- Two AIRFLOW System ventilation holes on the sleeves, adjustable through zips.
- On the front, double fastening system, with ASC (Air Stripe Construction) zip.

### SAFETY

- The protectors on the shoulders and elbows are EASYFLEX - Level 2.
- Attachment system for CPS back protection - Level 2 (optional - Code T8024).
- Presence of high-visibility reflective zones.

### COMFORT

- 3 pockets (2 waterproof) on the front + 1 large pocket on the back.
- 7 pockets inside + 1 mobile phone pocket.
- Adjustments on arm, forearm and waist.
- The collar with soft insert is equipped with a micrometric closure and an anti-flapping attach.
- Elastic device for connecting jacket to trousers, with universal zip.

- **Waterproofness:** 10000 mm
- **Breathability:** 5000 gr/mq/24h

## It steers every great adventure on the right course.

With the guarantee of riding with maximum comfort and safety, even in the most inaccessible climates and places. What makes it extraordinarily versatile and comfortable are the 3 independent layers, 2 front panels and 2 rear air intakes that can be modulated as required, as well as the ultra-light and ventilated EASYFLEX protectors on shoulders and elbows.

### OUTER SHELL

- The main fabric is made of Polystrong 600D, with Drop Safe treatment.
- Presence of high-tenacity Xtr-M mesh inserts.

### INTERNAL LAYERS

- The removable membrane is HYDROSCUD® 100% waterproof and breathable.
- The removable thermal padding is highly thermoregulating.
- The fixed inner lining is made of breathable, perforated polyester.
- Modular docking system.

### VENTILATION

- At the front 2 AIRFLOW ON DEMAND air intakes.
- Two AIRFLOW System ventilation holes on the back, adjustable through zips.
- AIRFLOW System ventilation holes on the sleeves, adjustable through zips.

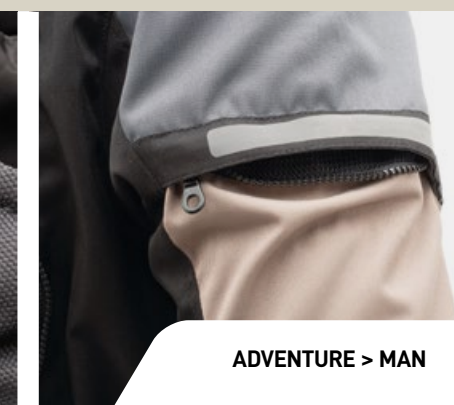

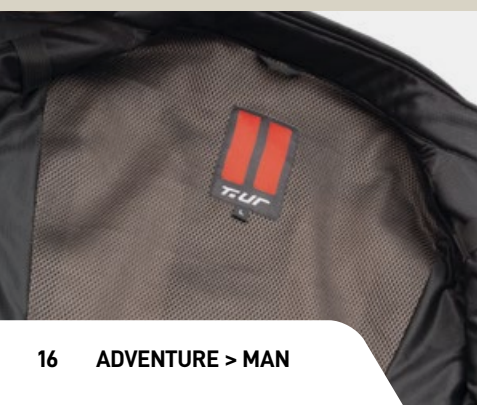

### SAFETY

- The protectors on the shoulders and elbows are EASYFLEX - Level 2.
- Attachment system for CPS back protection - Level 2 (optional - Code T8024).
- Presence of high-visibility reflective zones.

### COMFORT

- 4 pockets (2 waterproof) on the front + 1 large pocket on the back.
- 4 pockets inside + 1 mobile phone pocket.
- Adjustments on arm, forearm, waist and bottom with drawstring.
- The collar with soft insert is equipped with a micrometric closure and an anti-flapping hook.
- Elastic device for connecting jacket to trousers, with universal zip.

- **Waterproofness:** 10000 mm
- **Breathability:** 5000 gr/mq/24h

And if a downpour comes, the Drop Safe treatment and the 100% waterproof HYDROSCUD® membrane are ready to step in to ensure rainproofing and travelling pleasure, always.

### OUTER SHELL

- The main fabric is made of Polystrong 600D, with Drop Safe treatment.
- Large external parts in Xtr-m high-tenacity mesh.

### INTERNAL LAYERS

- The removable membrane is HYDROSCUD® 100% waterproof and breathable.
- The fixed inner lining is made of breathable, perforated polyester.

### SAFETY

- The protectors on the shoulders and elbows are EASYFLEX - Level 2.
- Attachment system for CPS back protection - Level 2 (optional - Code T8024).
- Presence of high-visibility reflective zones.

### COMFORT

- 2 pockets on the front.
- 4 internal pockets.
- Adjustments on arms and hem.
- The collar with soft insert is equipped with a micrometric closure and an anti-flapping hook.
- Elastic device for connecting jacket to trousers, with universal zip.

- **Waterproofness:** 10000 mm
- **Breathability:** 5000 gr/mq/24h

# ATLAS LADY T8108W

SUMMER JACKET, EN 17092:2020 CERTIFIED - CLASS A

## Famous last words “How to feel pierced by air”.

This is the ideal solution for summer motorcycling: the tightly woven mesh fabric ensures powerful ventilation, even in the hottest conditions. What also makes it extremely comfortable is the study of the fitting: thanks to the large elasticised areas with Lycra inserts on the hips and sleeves, it adapts to various physical structures and variations in circumference.

### OUTER SHELL

- The main fabric is high tenacity Light Mesh.
- Sides and sleeves made of high-tenacity Profiber stretch fabric.
- Presence of 400D Polystrong inserts.

### INTERNAL LAYERS

- The fixed inner lining is made of breathable, perforated polyester.

### SAFETY

- The protectors on the shoulders and elbows are EASYFLEX - Level 1.
- Attachment system for CPS back protection - Level 2 (optional - Code T8024).
- Presence of reflex striped inserts.

### COMFORT

- 2 pockets on the front.
- 2 internal pockets.
- Adjustments on arms and forearms.
- The collar is made of Lycra.

- **Waterproofness:** 10000 mm
- **Breathability:** 5000 gr/mq/24h
